

Symwave Raises \$12M Series C

-Kodiak Venture Partners leads growth round-

SAN DIEGO, CA – 18 July 2007 - Symwave, Inc., a leading supplier of high-performance analog mixed signal integrated circuit (IC) solutions for high volume consumer and computing markets, announced the successful completion of a \$12 million Series C financing round led by new investor Kodiak Venture Partners. Other investors in the financing include existing Symwave investors CMEA Ventures, JAFCO Ventures, Revolution Ventures and RPM Ventures.

"We are excited by the value Kodiak Venture Partners will bring to Symwave and the addition of Dave Furneaux to our Board as we enter our next phase of growth," said Ron Chaffee, CEO of Symwave. "Symwave has been gaining significant momentum in its target markets and Kodiak Venture Partners has deep experience in our industry – we look forward to a strong partnership with such a well-respected firm."

Symwave's high performance analog mixed signal IC products are revolutionizing computing and consumer electronic (CE) industries by providing ultra-low power and high performance solutions. These technologies enable and power rapidly growing industries such as high speed data transfer from CE devices, home networking and identity authentication.

"Investing in Symwave aligns well with Kodiak's commitment to build true market leaders. The company has a strong technology position and disruptive business model which positions it well for exceptional growth," said Dave Furneaux, Founder and Managing General Partner of Kodiak Venture Partners.

About Symwave

Symwave is a fabless semiconductor company that designs, develops and markets high-performance analog/mixed-signal integrated circuits and system solutions. Symwave specializes in the design and development of high-speed, standards-based Serial Physical Layer ICs (PHYs) and high-performance, low-power Analog Front End ICs (AFEs) leveraging its proprietary mixed-signal technology and silicon design capabilities. Symwave's mission is to become the premier supplier of high-performance, customer-driven mixed-signal silicon and systems solutions to the PC, mobile device and consumer electronics markets. Symwave's strategy is focused on defining, developing and delivering best-in-class / first-in-class integrated circuit solutions for its customers leveraging Symwave's world-class analog / mixed-signal IC design team coupled with its broad IP portfolio. Symwave is a privately held company founded in 2001 with headquarters in San Diego, CA, and offices in Southern China, and is backed by several top-tier venture capital firms.
